### ANOTHER PANIG

In Newfoundland Growing Out of a Banking Scare.

### THE RUN MADE ON ALL THE BANKS.

However, Will Not Cause Them to Close Their Doors-Bankers Have Gold Reserves Ample to Meet All Demands-Expected That the Panto Will Not Last Long.

Sr. Jouxs, N. F., May 7,-There is another banking scare here. Last night the story was circulated that the Bank of Montreal had suspended. This rumor was traced to a number of anticonfederation fanatics, who are constantly starting damaging reports. But the people here were so badly bitten in the late banking disasters that the rumor was engerly swallowed, and this morning there is a run on every bank in the city, causing great excitement. Crowds of people surround each of the banking institutions, where the officials are paying out gold as fast as demanded. All the banks have large reserves of gold, as, owing to the unsettled condition of affairs here during the past few months, most people refuse to handle notes, but convert them into gold immediately they are obtained.

There is no apprehension of any danger to any of the banks. The managers all say they have an abundance of gold to meet any possible call, and it is expected the panic will have subsided by the evening. are paying out gold as fast as demand-

Armenian Refugees Torrured into Signing a False Paper.

Loxpon, May 7.—The Daily News to-

day publishes advices received from its correspondent at Kars, saying that 800 of the survivors of the recent massacre in Armenia, who returned to their nomes under promise of protection from the Turks, are being daily persecuted and tortured at the hands of the Turkish officials, supported by gend-'armes. For two months, it is added, the officials have tried to force the refugees to sign an address of thanks to the sultan, stating that they have met with only kindness at the hands of the troops; that all the troubles were troops; that all the troubles were caused by the Kurdish raiders and that caused by the Kurdish raiders and that the sultan's troops took no part in the slaughter. Those refusing to sign the address are beaten, placed in chains and are suspended for hours by their feet. Women were outraged, children were shamefully treated and the soldiers dragged women and girls forward and forced them to sign the address.

Just now everybody is thinking about taking something for the blood. A Spring medicine as we speak of it. And it's a good thing to do, but you want to get the proper medicine. If you consult your physician he will tell you to

was asked:
"Do you think the establishment of bi-motalism will restore confidence and produce good times?"
"While I believe in bimotalism and the parity of value or both gold and silver, giving to both metals equal chances and equal privileges in the money markets, I am not so sanguine as to believe that the United States can, by simple decree, produce the desired result. We ought to have an international agreement which shall establish the proper relations as to metallic currency. Then the obstruction to currency legislation which now exists will become more cobwobs. The country is worried by the theories of charlatans, who offer unfailing remedies for every lill, ignoring the teachings of experience. Ultra silver theorists and ultra gold theorists are alike impatient of each other, and alike opposed to any middle ground, but there is always safety in underate and well considered action. Much as we may wish to give to fee silver its equal and proper place as a money metal, we must look to existing conditions where they demand it at other hands.
